Rameses

Rameses—42 in. WINNER OF THE DYKES MEMORIAL MEDAL—HIGHEST INTERNATIONAL HONORS. This Medal is awarded only to the **one best Iris of the year** by a committee of competent experts and any Iris so honored must be close to perfection. You will not be disappointed in Rameses. The flowers are much larger than the illustration and much more beautiful. It is in my opinion a perfect flower in every way in a delightful blending of tourmaline pink and soft golden yellow, with a frosty orchid-like texture that no picture can reproduce. The stalks are nicely branched and the flowers are beautifully poised and produced in great abundance. **Fine, strong plants 50c each; \$5.00 per doz.; \$35.00 per 100.**

As I receive thousands of small orders it is necessary for me to avoid the details of billing, bookkeeping and collecting these accounts. Therefore a check, money order, cash, or stamps should be sent with the order. In case cash or stamps are sent the letter should be registered for your protection. If you live on a Rural Route, your letter carrier will be glad to buy a money order for you. No shipments are made C. O. D., as we have found it very unsatisfactory.

For several years I tried the experiment of prepaying the express charges or postage. While the amount paid on an individual order was usually very small, I have learned by experience that **twenty or thirty thousand** of such payments in a season wipes out all the profits, whereas if each purchaser will pay the small express charge on his shipment, it will not be a hardship on anyone. I therefore send everything by Express, charges collect, the small express charge to be paid to the express company on delivery of package. If shipment by parcels post is necessary, please include sufficient to cover postage.

Sir Michael—35c ea.; 12 for \$3.50; 100 for \$25.00—See Page 24

Fiesta—38 in. Illustrated above. Just as the prospector strikes gold only after long and tedious exploring, so in Iris breeding it is the one in many thousands of crosses that produces an Iris of the great beauty of Fiesta. It was released recently by the introducer at \$20.00 a plant, but I now have a limited number of plants to offer it for the first time at **\$2.00 each; \$20.00 per dozen.**

Thanks Again—For Everything

We wish to again express our appreciation for the co-operation of everybody during the 1943 season. There is a tremendous amount of detail involved in growing, selling, digging, and shipping hundreds of thousands of plants each year in a nation-wide business such as ours; and in times like these, with the severe labor shortage, it becomes increasingly difficult to give the sort of service we like to give. We feel rather pleased with the way we were able to handle the business during 1943; but of course we have no means of knowing what lies ahead of us during 1944, excepting that things will get tougher. So thanks again for your courtesy and consideration during the 1943 season and let us hope that we will not fall down too badly during 1944.

PLACE YOUR ORDERS EARLY

Give us a "break" by allowing us ample time to fill your order. **Rush orders take five or ten times the amount of time to fill,** because on a rush order we must have a man travel miles and miles, back and forward over our Iris ranch picking out one plant here and one plant there, whereas our regular routine calls for digging 100 orders at one time and all plants of a variety on a day's work are therefore dug at one time. This year we will not have the manpower necessary to handle rush orders, aside from the tremendous additional cost. **If orders must be handled special as rush orders, we will do so for 50% additional cost.** Otherwise all orders will be filled in the rotation in which they are received—first come first served. Each order will be acknowledged and approximate date of shipment given, unless immediate shipment is being made. If there is any date when you will not be home to receive the package, please advise when order is sent.

As usual all of our Tall Bearded Iris, Autumn Flowering Iris, Miniature Bearded Iris, and Pogocyclus Hybrids will be sent to you direct from my Iris Ranch at Grandview, Washington.

All other Iris and other plant material are grown at my 110 acre Nursery in Northern New Jersey, and will be sent to you direct from there.

All orders will be filled with large, strong, healthy, flowering size plants and all plants are of course guaranteed true-to-name. There is no place in the world where this is more carefully guarded than in my gardens and on my farms.

I always send the finest plants I have of the variety ordered. Each variety will of course be properly labeled excepting where otherwise specified and they will be carefully packed.

If you prefer to leave the selection to me, rather than decide upon it yourself, just give me an idea of what you would like and I will be pleased to give my personal attention to making the selection for you as carefully as though it were made for my own planting. I am sure you will be more than pleased with any selections I make for you.

All prices are strictly net cash. Prices are per plant, excepting where otherwise noted.

Planting and cultural directions will accompany all shipments.

ROBERT WAYMAN

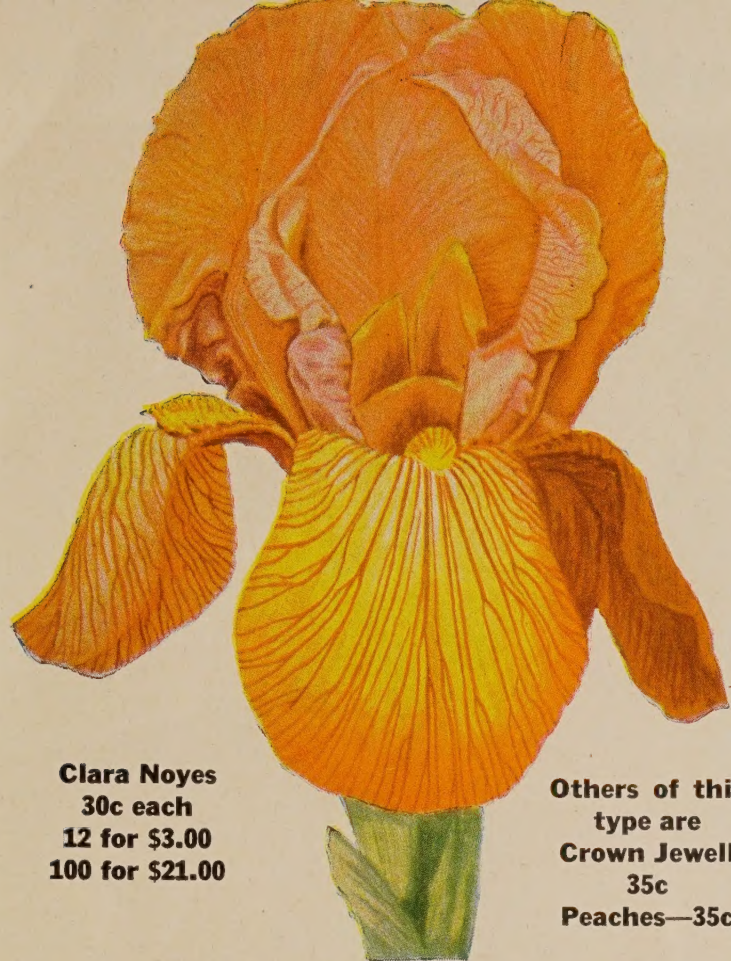

FROM PENNSYLVANIA

"About this time last year, from your 'ads' in the Philadelphia Inquirer, I ordered 2 or 3 special lots of Iris. The plants were received by a gardener and planted while I was away for my health. This Spring I saw the finest Iris in bloom in my garden sent by you, I had ever seen."

REGARDING DYKES MEDAL WINNERS

The Dykes Memorial Medal can be awarded to **ONLY THE ONE BEST IRIS EACH YEAR**. The care with which it is awarded gives assurance that the winner of this medal is the outstanding Iris of the year. The American Iris Society has a jury of Iris connoisseurs, located all over the United States, to judge, evaluate, rate, and criticize each new arrival. This jury of accredited judges consists of about 150 members. Any Iris that runs the gauntlet of this group of judges and is awarded the Dykes Medal is in a class which leaves no room for argument as to its superior quality. Some of these Awards were also made in England and France under similar conditions.

Tall Bearded Iris may be planted any time when the ground is not frozen, the months of August and September being best. They are hardy anywhere. **CULTURAL DIRECTIONS WILL ACCOMPANY ALL SHIPMENTS.**

I expect to be able to fill all orders, as I have a tremendous stock, but unless you instruct to the contrary, I reserve the right to substitute an equally good or finer variety if any varieties ordered are sold out. If this is not agreeable merely specify "Do not substitute" in which case I will return your money for anything that is out, as war conditions will not allow time for correspondence on such matters.

FROM NEW HAMPSHIRE

"The shipment of Iris roots came yesterday and I feel it would be unfair not to tell you how thrilled I was over the wonderful roots you sent me. Such Roots! Such Roots! I kept saying to myself. I have bought Iris roots before, but never received anything like them before. Your generosity exceeds anything I ever saw before. I thank you most sincerely and assure you I am telling my friends all about them."

FROM NEW YORK

"I have meant for some time to write you about the Iris you have sent me in the past. They are so wonderfully beautiful, and so grateful for even mediocre attention, that I can hardly believe my eyes each spring when Iris time comes again. You little guess how much joy you have given to how many people with your exquisite Iris."

THE OUTSTANDING IRIS OF THE CENTURY**

FROM CONNECTICUT

"I would like to express my gratitude at this time for the great joy and pleasure we have received from our Iris blooms from stock I purchased last year. I stood looking at one called True Delight as dainty as an orchid and I thought how this name covers the entire lot. They are truly a source of true delight. I would also like to comment on your fine healthy stock. All my plants have been the best."

FROM TEXAS

"The collection of over 100 Iris I bought from you last fall were extra fine rhizomes and practically every one bloomed."

FROM CALIFORNIA

"Received a selection of Iris from you and you will be interested to know that we had better results with them than those that we have bought from California producers."

FROM NEW YORK

"My first order of Iris has arrived and I am writing to say how pleased I am with them. They are all splendid large plants and extraordinarily uniform. They are better than anything I have had from any other nurseryman, so any future orders I may have for Iris will surely go to you."

3 IRISES OF REGAL BEAUTY

Royal Salute—36 in. Upper left. One must see this variety blooming in the garden to appreciate its great beauty. It is of the richest Royal Purple coloring and the beauty and richness of the flower is not even approached in the illustration. Furthermore it is such a prodigious bloomer that an established plant is completely hidden by the blossoms. The flowers are of large size and of best shape for garden or landscape effect; and they flower two weeks ahead of most other Tall Bearded Iris. All this and a most delicious fragrance too! A fragrance that will perfume the entire garden. **35c each; 12 for \$3.50; 100 for \$27.50.**

Easter Morn—48 in. This sparkling white Iris has a satiny sheen and a delightful fragrance, as well as a form that is generally considered perfection by Iris experts. The flower is of course much larger than the illustration and the flowers are beautifully placed on nicely branched stalks. **35c each; 12 for \$3.50; 100 for \$27.50.**

Shining Waters—4 to 5 ft. Lower right. This very delightful Iris is most aptly named, for there is a "sparkle" to the surface in the sunlight similar to the sparkle of sunlight shining on the water—hence the name. On close inspection the surface seems to be studded with tiny jewels as a part of the texture. The color is uniform clear sky blue of a most delightful shade. **35c each; 12 for \$3.50; 100 for \$27.50.**

"FIVE STAR" 100% PRIZE WINNERS for 1944

Having grown and tested more than 6,000 varieties of Iris, eliminating more than 5,000 varieties, and retaining only the very best, it has been my custom each year to select from this Choice Group an "All-American" Team of the best of each color. Here is my selection for 1944. You can confidently count upon each of these being a sure Winner in the flower shows.

California Gold —36 in. Best deep yellow. (See back cover)	.75
Anakim —48 in. Fragrant soft mauve. Graceful flowers of colossal size. Best of its color	.50
Cheerio —40 in. Gorgeous red-toned Iris. See color illustration, Page 3	.50
Missouri —42 in. DYKES MEDAL WINNER. Best deep blue toned Iris. See color illustration, Page 2	.50
Gudrun —42 in. DYKES MEDAL WINNER. Largest and best white Iris. Flowers of mammoth size and great beauty	.35
Miss California —48 in. A gorgeous orchid-pink tone. Largest and best of this color. Exquisitely fragrant	.60
Happy Days —44 in. Largest yellow Iris. See description outside cover	.50
Gloriole —42 in. Best of the very soft blues, the color being just a flush, with a "sparkle" due to a frosty iridescence. Large flowers of fine form	.50
Imperial Blush —44 in. Best of the very soft pink tones, and exquisitely fragrant. Very large flowers, perfectly formed, produced in great abundance	.50
Valor —50 in. Very fragrant. Largest, richest, and finest of its type, the general color effect being deep, rich, blackish-blue-violet	.35
Bronze Champion —30 in. Pure metallic copper, with a poise and charm that immediately attracts attention. My own introduction and a MEDAL WINNER	.35
Kalinga —48 in. Delightfully fragrant and a "Masterpiece" in the cream colored Iris, with Ivory texture, 12 to 15 flowers to a stalk. A prodigious bloomer	.35
Shah Jehan . 38 in. A multi-colored Iris, with many delightful colors, the upper petals being essentially cream and the lower petals ruby-red with a white border. MEDAL WINNER	.35
M. A. Porter —36 in. One of the best of the new giant flowered Iris, in exceedingly rich deep violet, with velvety flaring falls	.35
Crown Jewell —34 in. A brilliant yellow and flame colored Iris, in the colors of the World Famous Talisman Rose	.35
The Black Douglas —38 in. The best of the new dark tones, or so-called Blacks, being darker than the Black Tulip, the color being intensely deep velvety blackish violet	.40
The Red Douglas —40 in. DYKES MEDAL WINNER 1941 (only the one best Iris receives this award each year). Superb rich uniform dark red	.60
El Capitan —40 in. Mammoth size brilliant blue flowers of delicious fragrance, perfect form, and profuse blooming	.35
Theodolinda —42 in. Largest and best of the "Plicatas." Huge white flowers, beautifully edged with light blue "feather stitching"	.50
Coralie —38 in. DYKES MEDAL WINNER. A unique and distinctive raspberry-red color. Flower of great distinction produced in great quantities	.40
Julia Marlowe —42 in. The delightful fragrant early blooming, brilliant Chinese violet flowers are produced in great profusion. The shape of the flower is perfect for garden or landscape effect. The flowers are of huge size, much larger than the illustration. 35c each; 12 for \$3.50; 100 for \$27.50.	

"FIVE STAR" 100% PRIZE WINNER COLLECTION

1 EACH—21 VARIETIES—Catalogue value \$9.40 for \$8.00
3 EACH—63 PLANTS—Catalogue value \$29.20 for \$22.00

Julia Marlowe, illustrated above, is one of our most stately beautiful Iris, available at a very modest price. The flowers are much larger than the illustration and freely produced. The form is perfect for mass color effect in the garden. 35c each; 12 for \$3.50; 100 for \$27.50.

"Gold Nugget" Collection of Hardy Hybrid Daylilies

6 Varieties as Illustrated at Left \$3.75
Catalogue Value \$5.50

1. Ophir \$1.00 2. Goldeni 75c 3. Radiant \$1.00
4. J. A. Crawford \$1.25 5. Margaret Perry 75c 6. Bay State 75c

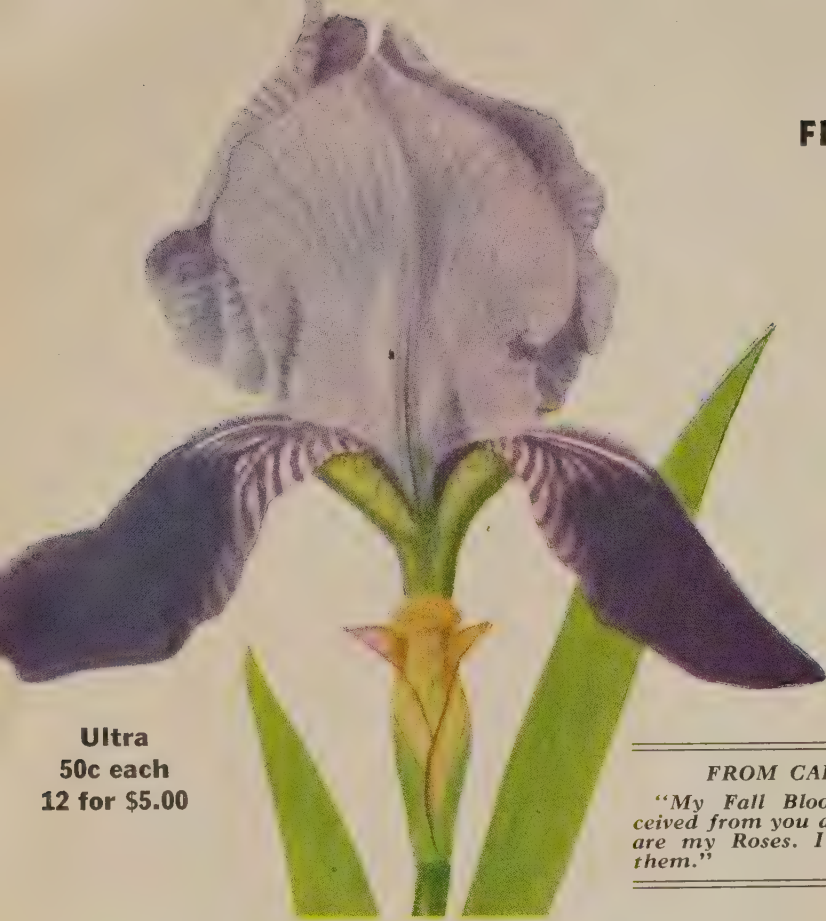

On my visits to Newport, home of millionaires, I have noticed that the Daylily is a feature of many of the showplaces of this marvelous community, where magnificent gardens and estates are the rule. And it is natural that they should be, as there is no flower that produces a more marvelous display. For the small garden or large estate they are equally appropriate and they are so hardy that, when once planted, they need practically no care. They do equally well in the semi-tropical temperatures of Florida and California, or in temperatures of 25 to 30 degrees below zero in our northern states. They will naturalize themselves in the woodland, or in a wild garden, and take care of themselves when once planted.

6 "TREASURE CHEST" COLLECTION \$2.50
VARIETIES UNLABELED

In each case each variety will be different and all will be fine strong flowering size plants. I will give personal attention to the selection of the varieties to give the longest flowering season and best color range and will include varieties that flower from May to September.

Autumn Flowering Iris

FLOWERING TWO OR MORE TIMES EACH SEASON

Ultra
50c each
12 for \$5.00

FROM CALIFORNIA

"My Fall Blooming Iris I received from you are doing fine. So are my Roses. I am so proud of them."

Autumn Haze—30 in. NEW. VIOLET FRAGRANCE. This is by far the largest and most outstanding of all Autumn Flowering varieties, **comparing in size with the giant Nene**. The standards are light lavender-violet and the falls are hyssop-violet, shading to manganese violet at the centre. It is superb in every way. A large stock of extra fine plants permits a very low price this season. **.40**

Autumn Queen—18 in. A lovely pure snow-white. One Kansas grower informs me that he has had **flowers on Autumn Queen for seven months out of a year**, which would make it almost an ever-bloomer. **.35**

FROM CALIFORNIA

"I am very proud of my Iris that I got from you last year and I would like Mr. Wayman to know that my Theodolinda was winner of the first prize in the Iris Group of the E. A. A. Spring Flower Show."

Black Magic
40c ea.; 12 for \$4.00
100 for \$28.00

Eleanor Roosevelt —
40c. Is about the same
color as Black Magic

These **Double Duty Irises** not only blossom in the spring, along with other early flowering varieties (Early May in the latitude of Long Island and a month earlier in the south) **BUT THEY FLOWER AGAIN PROFUSELY IN THE AUTUMN, BEGINNING IN SEPTEMBER AND CONTINUING UNTIL KILLED BY HEAVY FROST. SOME OF THEM ALSO FLOWER INTERMITTENTLY THROUGHOUT THE SUMMER, THUS GIVING SEVERAL SEASONS OF BLOOM.** They are all hardy and can be planted any time and require little care. **Planting and cultural directions accompany all shipments.**

Autumn Elf—18 in. Another new and dainty color in the Autumn Flowering Irises, with ruffled standards of cream and with flaring falls of soft lilac, with deeper veins at the throat. The first to bloom in the fall. **.35**

Autumn Forst—36 in. VERY SWEET FRAGRANCE. The tallest of the Autumn Flowering varieties. Very large beautifully poised flowers of perfect form, wax-like substance and alabaster whiteness. **.40**

Peggy Babbington—35c ea.; 12 for \$3.50; 100 for \$24.50

ILLUSTRATION VERY GREATLY REDUCED

Black Magic—28 in. **This is by far the finest and most profuse fall-bloomer of all. The original plant, divided into 10 parts in the fall, produced 40 flowering stalks the following September, with more than 200 flowers, each plant producing from 3 to 6 stalks.** It also flowers just as profusely in early spring. The color is an intense deep blue violet, with a rich velvety lustre and a black sheen. See color illustration. **.40**

Dorcas Hutcheson—18 in. FRAGRANT. An exceptionally fine rich uniform pansy-violet, and one of the best. An extra fine stock of large rhizomes enables me to make a very low price on this choice variety. **.35**

Eleanor Roosevelt—26 in. A profuse bloomer twice a year and one of the best of the recent introductions. Almost identical in color with "Black Magic," which, however, flowers earlier and even more profusely. **.40**

Frost Queen—22 in. A new frosty-white of great merit, with much larger flowers than Autumn Queen. **10 to 12 flowers to a nicely branched stalk** make it an unusual fall bloomer. Very fine in every way. . . . **.40**

Golden Harvest—18 in. A very fine large free flowering deep yellow, having a greenish-gold cast, with red-gold veining at the throat. A reliable bloomer twice a year. **.35**

FROM MASSACHUSETTS

"The Iris which I have had from you from time to time are now in full bloom and are simply gorgeous. I am looking forward to next year to even more beautiful blooms from the new plants just ordered."

Autumn Flowering Iris

(Continued)

Jean Siret—15 in. A NEW YELLOW EVERBLOOMING IRIS. This variety and Lieut. Chavagnac are undoubtedly the forerunners of a new race of Everblooming Irises. They are the most persistent bloomers of the entire family. They begin to flower quite early in the spring with the early miniatures and at that time have a very long flowering season. They also have an equally long Autumn flowering season. I have had them in bloom from September until the middle of December. But best of all, they have a decided tendency to flower any time that the weather seems to suit them throughout the summer months. **Sold recently for \$10.00 for a single plant.** .35

Lieut. Chavagnac—15 in. A NEW EVERBLOOMING FRAGRANT BRILLIANT VIOLET COLORED VARIETY, WITH ALL THE GOOD QUALITIES OF JEAN SIRET, including its everblooming tendencies. These two go well together. **Recently sold for \$10.00 for a single plant.** Stock still scarce. .35

Martie Everest—36 in. This is a very lovely uniform blue of medium tone, which blooms almost continuously from May until Frost. Offered by me for the first time last season. .35

Neola—10 in. A New Color in this Class, the standards being of violet and the falls deep brown, shading to molasses brown. The flowers are large and of good form. .35

October Blaze—24 in. One of the most attractive of all the Fall Bloomers, being somewhat similar to Dauntless in color, giving us a brilliant red-tone in this group. .50

Olive White—18 in. A very lovely creamy-white variety, with attractive green-gold veining at the throat. .35

Peggy Babbington—28 in. A rich, deep clear uniform yellow, with wax-like petals of the smoothest possible texture. See color illustration. Extra Fine Plants. .35

Polar King—36 in. Snow-white flowers of gigantic size, perfect form and substance, and the best Iris in this group. Flowers during May and June and then again from Sept. until frost in the north. In milder climates is said to bloom almost continuously. 5.00

Sangreal—28 in. A remarkably fine new deep yellow with a deep orange beard. An improvement in the yellow fall bloomers. .35

September Skies—28 in. One of the most amazing of all the Autumn Flowering Iris in rich brilliant violet purple tones .35

Southland—24 in. GIVEN AN AWARD OF MERIT BY THE AMERICAN IRIS SOCIETY 1939. A sensational new deep golden yellow variety, with large flowers of fine form and heavy substance on well branching stalks. .35

Super Autumn King—30 in. A recent introduction and a great improvement on Autumn King. The color is the same, but it is a much more reliable and prolific bloomer. For this reason I have discontinued growing Autumn King and offer Super Autumn King instead. It is a fine blue-purple bi-color. .35

October Blaze

50c ea.; 12 for \$5.00; 100 for \$35.00

is more red toned than the above illustration and about twice as large.

Surefire—18 in. This new Iris is well named, as it is one of the most dependable bloomers twice a year, early spring and fall. The color is a soft creamy yellow of ivory-like smoothness, with a deep orange beard. In the fall this color is deeper. .35

Ultra—18 in. The unusual brilliant color of this Iris would make it valuable even if it flowered only in the spring, but it is a profuse bloomer twice a year, being one of the most reliable of all Fall Bloomers. A real gem and one of the best of this group. See color illustration. .50

White Autumn King—30 in. A magnificent new glistening snowy-white of robust growth. A prodigious bloomer, a large flower of perfect form and heavy wax-like substance. .40

ONE EACH OF THE 23 AUTUMN FLOWERING IRIS LISTED ON PAGES 26 AND 27 AND OMITTING POLAR KING—VALUE \$8.65 FOR \$7.50; 3 EACH, VALUE \$25.95 FOR \$21.50

COLLECTION OF ORIENTAL POPPIES

ONE EACH 6 VARIETIES, ALL DIFFERENT—MY SELECTION—EACH PLANT LABELED\$ 2.50

3 EACH 6 VARIETIES, TOTAL 18 PLANTS..... 6.75

6 EACH 6 VARIETIES, TOTAL 36 PLANTS..... 12.00

This collection will include double and single varieties, some ruffled, others fluted or with fine “crepe” effect, others with burnished satin-like texture. Each color will be different and distinctive, flaming red, pink, white, pastel shades, etc., each variety being intended to fill some special place in the collection. I am sure you will be delighted with it. Owing to war conditions this may be my last offering of the collection.

These Poppies will be sent from my nursery in New Jersey.

Miniature Bearded Iris

This group is the direct result of crossing two distinct Species, one of which is *Pumila*, a **stemless** Iris, found in Austria-Hungary, South Russia, and the Caucasus; the other is *Chamaeiris*, a native of Southern France and Northern Italy, which produces flowers on stems 6 to 10 inches in height. By crossing these our modern Miniature Iris have been produced, with all of the beauty of both Species, on the flowering stems of *Chamaeiris*, and with all of the ruggedness of the latter very rugged variety. The results of these crosses have been flowers that are handsome beyond description, in new colors and types never found in either parent. They have, in miniature form, all the characteristics of the Tall Bearded Iris and are prodigious bloomers. They begin to flower in April in our northern states, and continue until the middle of May. **A few Everbloomers and Spring and Fall bloomers are also found in this group.** They are hardy anywhere, and are ideal for the rock garden, or for planting in small beds, or along the edge of a perennial border; in fact any place where low growing free flowering plants are required.

The lengthy list, and limited space, makes very brief descriptions necessary, but they are all real gems. They are hardy anywhere.

Crested Iris

In this group the "Beard" of the Bearded Iris is replaced by a Crest, like a cock's comb, the crest being of the same substance as the petals. The markings on some of them remind one of bits of hand painted porcelain. Flower in May (a month earlier in the South).

Planting and cultural directions accompany all shipments

Cristata—4 to 6 in. DELIGHTFUL CRAB-APPLE FRAGRANCE. Dainty soft amethyst blue, with a touch of gold at the throat. Beautifully fringed and crested. Prefers a semi-shady location, where it will carpet the ground with color, and with a luxuriant grass-like foliage during the balance of the year. See color illustration at right above.

20c each; \$2.00 doz.; \$14.00 per 100

Cristata Alba—4 to 6 in. A handsome white form of the above. Very rare.

35c each; \$3.50 doz.; \$24.50 per 100

Cristata Coerulea—4 to 6 in. Offered for the first time. All flowers uniform deep rich Royal Blue grown from one original plant. Very handsome.

35c each; \$3.50 doz.; \$24.50 per 100

Cristata—20c Each; 12 for \$2.00; 100 for \$15.00

Gracilipes—6 in. A tiny Crested Iris, of dainty pinkish-lilac color. One of the most desirable of this group. Prefers a semi-shady location.

35c each; \$3.50 doz.; \$24.50 per 100

Lacustris—4 in. A distinctive Cristata type from the sandy shores of Lake Michigan. Flowers during April and early May and again intermittently through the summer. Requires a sunny, sandy location.

35c each; \$3.50 doz.; \$24.50 per 100

Paltec—24 in. A most unusual cross between a Crested Iris and a Tall Bearded Iris (Pallida x Tectorum). One fortunate result of this very unusual cross is that Paltec is more or less ever-blooming. The flower is very much like Tectorum, illustrated at left above, of a uniform self blue color but it has both the crest of the Crested Iris and the Beard of the Bearded Iris, the Beard being superimposed on top of the crest. Very rare.

25c each; \$2.50 doz.; \$17.50 per 100

Tectorum—10 in. The Famous Roof Iris of China. Deep lilac-blue with an ivory crest. See color illustration at left above.

25c each; \$2.50 doz.; \$17.50 per 100

Tectorum Album—10 in. An exquisite snow-white form of above, the crests being marked with gold. Very rare and one of our most handsome Irises.

\$1.00 each; \$10.00 per doz.

Winter Flowering Iris

Unguicularis, also known as "Stylosa" is one of our most interesting Iris Species. It is a native of Asia Minor, Algeria, and Northern Syria; but like other rare and interesting Iris Species that have been sought out from every nook and corner of the earth, these may now be had from the Wayman Gardens, to be enjoyed in your own garden. See illustration at right.

IRIS UNGUICULARIS CANNOT BE MADE TO FLOWER DURING THE SUMMER, NO MATTER WHAT YOU MAY DO, but it persists in flowering during the winter months in the north in the protection of a cold frame. In the south they bloom out of doors during the winter months. Contrary to all normal rules, they seem to require a slight frost to form their flower buds and make them break out into blossom, their flowering period usually beginning during December and continuing throughout the winter months. The color is a lovely shade of blue and they are charming as cut flowers. Because a grouping of four plants is so attractive, I am making a special price for four.

Hardy Pogocyclus Hybrids

It was in the gardens of Sir Michael Foster, Member of the British Parliament, and a Pioneer Iris student, that this remarkable race had its origin, for the earliest of our Pogocyclus Hybrids are the results of his efforts. In fact many of the varieties on this page came originally from the gardens of Sir Michael Foster. Little further was accomplished for many years, until the introduction of Wm. Mohr, an American introduction, named after the originator, who as a result of an unfortunate auto accident, never lived to see it in flower. Wm. Mohr proved to be the largest and finest of all, as the result of a new combination in which the elusive and very handsome "Gatesii" was one of the parents. Since that time four new introductions of outstanding merit have put in their appearance, all offspring of Wm. Mohr, namely Mohrson, Grace Mohr, Ormohr, and Elmohr, all improvements on Wm. Mohr, principally in the height of the flowering stalk and size of flower.

This group is the result of crossing two distinct races of Irises and the results obtained are marvelous for their exquisite beauty. They are as different from other Irises as though they came from another planet. Many are beautifully frilled, heavily veined and netted, and all have unusual or quaint markings or stripes. They may be depended upon to add a note of distinction to any part of the garden. They like a dry sunny location and are quite hardy and of easy culture.

Congres—36 in. A marvelously rich dark ruby red, the velvety falls being darker and of a rich mahogany tone, with a beautifully veined throat. **.35**

Dilkush—30 in. A magnificent variety with large violet flowers, the standards having a richly netted veining and the falls having a plush black area at the throat. **.30**

Dorak—30 in. A fine "show" Iris of gigantic size and unusual coloring. S—ruffled, clear soft violet; F—purple-violet, beautifully marked. **.35**

Doxa—18 in. A large flower of unusual color, olive-green lavender-yellow blend. Entirely unlike any other Iris. **.30**

Giran—24 in. A very handsome wine colored variety, with beautiful veining and marking. **.30**

Grace Mohr—40 in. AWARD OF MERIT AMERICAN IRIS SOCIETY 1939. A new Wm. Mohr progeny, having an unusual height and branching qualities not heretofore obtained in Pogocyclus Hybrids. Huge flowers of soft lilac, veined manganese violet. **.50**

Ib-Pall—30 in. A fine large free-flowering variety with ruffled reddish-lilac standards and dark violet falls over a white ground. Bronzy yellow beard, with a dark spot on the falls at the tip of the beard. **.35**

Lady Lilford—30 in. Intense, rich, scintillating blackish-purple, with a black beard. One of the darkest of all Irises and one of the finest and richest of the pogocyclus hybrids. Large flowers and a prodigious bloomer. **.35**

Mohrson—40 in. The first offspring of Wm. Mohr to be introduced. The flowers are immense and of fine form and heavy substance on tall strong stems. It is a magnificent Iris, with rich, clear, deep violet standards, with a cockled and varnished surface and with ruffled edges. F—Petunia-violet, overlaid with a fine network of Nigrosin-violet. Bronze-orange beard. **.50**

Mons. Steichen—15 in. GIVEN AN AWARD OF MERIT BY THE ROYAL HORTICULTURAL SOCIETY OF FRANCE. S—iridescent milky-white, flushed very soft lavender; F—creamy white, flushed soft yellow, with a deep wine-red velvety spot, radiating out into veins of the same color. Reminds one of fine porcelain. An exquisitely dainty variety. **.25**

Nazarin—Next to the highest rated of this group. Purplish-violet standards and darker falls. A real beauty. **.35**

Ormohr—40 in. Pale Lilac with a silvery cast, veined violet. One of the newest and best. **.75**

Parvar—20 in. A most unusual dark variety, with black-violet standards and soot black falls, with a rich velvety sheen. Entirely in a class by itself as there is nothing else like it. **.30**

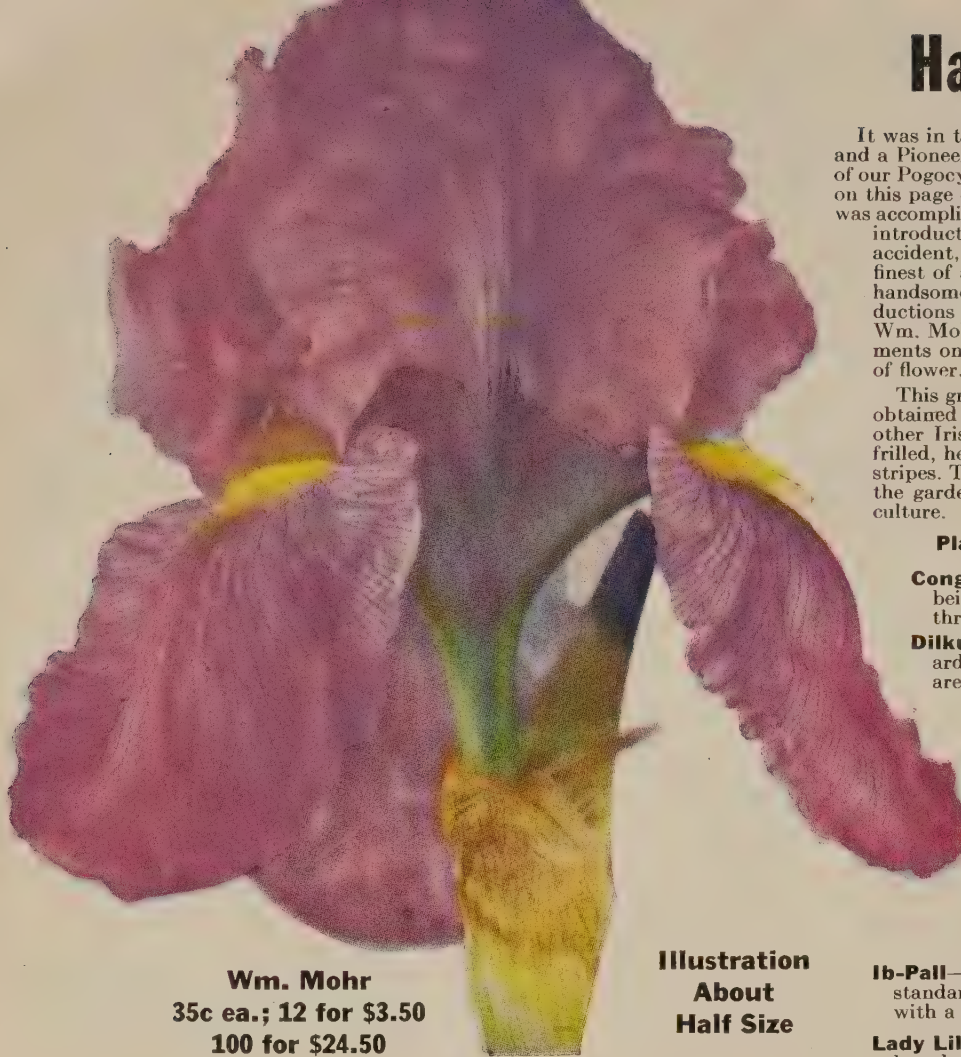

Semele—32 in. One of the largest and finest of this type and apparently quite unknown in this country. A beautifully frilled and ruffled flower, with standards of soft sky-blue, mottled darker blue and with crimson toned falls over a soft-purple background; small black area at the throat. **.35**

Shiraz—36 in. This is one of the most attractive of this group. S—soft, uniform bright violet; F—a deeper shade, the color being deeper beyond the tip of the beard and veined over a white ground on the balance of the petals. **.35**

Shushan—15 in. The colors in this variety are more or less solid, without the intricate veining to be found in others of this group, but the flower is unique and beautiful and the colors are most distinctive. The erect silky standards are of bright violet purple, the flaring velvety falls of dark rich mahogany, with burnt orange styles and bronze beard. In the sunlight the falls take on a fiery red color. **.30**

Wm. Mohr—26 in. The highest rated variety in this group. Gigantic flowers of soft velvet, beautifully veined bright manganese violet. Sold for \$50.00 for a single plant a few years ago. One of the most popular of all Irises. The color illustration does not begin to do it justice. **.35**

Zwanenburg—20 in. A large flowering very early variety, a prodigious bloomer and one of the most rugged of all Irises. The flower is of a lustrous silky texture, the color being cream to old-gold, splashed maroon. **.30**

Caesar Siberian Iris

They are all quite hardy, and many eminent authorities consider them the most elegant of all Irises. They are of the easiest culture and are prodigious bloomers, an established clump often producing fifty or more flowering stalks. They grow on **long thin tubular stems**, have ornamental, grass-like foliage and are excellent cut flowers, lasting a long time when cut. They bloom about the same time as the "Bearded" Iris. They are especially fine for landscape work, or for bordering a brook or pond, where they should be kept just above the water line. They prefer a moist, well-drained, sunny situation and soil that is rich in humus, but will take care of themselves almost anywhere. In fact, I have had them do exceedingly well in almost full shade, where the soil was quite dry. The best fertilizer is well-rotted stable manure. Avoid lime, also bone meal on account of its lime content.

FROM MISSOURI

"My Iris order arrived today and may I say they are 'the tops' in any Iris I have ever received. The divisions were unusually large, unusually thrifty in appearance, and in a beautiful condition. I do not always expect choice plants from collections, but I am truly delighted with my order."

FROM MASSACHUSETTS

"I received a collection of Iris from you last year and wish to thank you for sending me such fine plants. I was surprised and delighted when every one of them bloomed this Spring, for never before have I had every Iris in a new planting bloom the following Spring. Two sent up two stalks."

30 Beautiful Summer Blooming Iris "Kaempferi"

These are among the most gorgeous of the entire Iris family. There is nothing more showy than these fine Iris; and as they blossom after the other Irises have finished flowering, they thus prolong the Iris season for several weeks. There are giant singles and doubles, self colors, mottled, striped, and blended effects, subtle soft tints and intense deep colors in a most comprehensive range. They are different in form from all other Irises. **Many are as large as a dinner plate.** Any one may be successful with them by following the simple cultural directions accompanying all shipments. The varieties listed are mostly of United States or French origin and of course **all are grown in America at our New Jersey Nursery.**

On the Very Fine Group on This Page I am Making a Uniform Price of 50c each; \$5.00 a doz.; or 100 for \$35.00

SPECIAL FOR THIS YEAR

The Iris Kaempferi on This Page Can Also be Furnished in Clumps, Instead of Single Plants, at 75c each; 12 for \$7.50; 100 for \$52.50. They are worth much more than the difference in price, as each clump contains two or more plants and they do not suffer any shock of transplanting.

- Alice Blue**—36 in. A very handsome double uniform soft bluish-lavender, with snow-white styles tipped lavender.
- Azure**—45 in. Huge double flowers of very lovely soft azure blue with snow-white throat area and mauve crest
- Bangkok**—40 in. Early. Huge single flowers of unusual uniform lavender-violet, with a single area of deeper violet at the throat surrounding tiny orange spear points. Styles white, tipped lavender.
- Betty F. Holmes**—42 in. Huge snow-white flowers of heavy wax-like texture, generally considered the best white.
- Blue Border**—36 in. A magnificent single snow-white, with nicely ruffled edges and a blue border.
- Brocade Mountain**—40 in. I consider this the finest of all Kaempferi Iris. See illustration above.
- Caroline G. Childs**—32 in. Three large white petals veined blue-violet. Three small standards blue and white. A choice variety.
- Cherry River**—38 in. Double. This is the finest pink toned variety I have seen, being a true soft cherry blossom pink, with a white area surrounding the yellow throat markings.
- Cloud Dress**—42 in. Double. Beautifully formed with a dainty network of soft mauve veins over a white ground.
- Court Gown**—36 in. Magnificently brilliant rich red-purple flowers of unusual beauty.
- Dancing White Wave**—40 in. Gigantic, beautifully frilled double white, very lightly flushed soft lavender. Tufted centre. One of the best.
- Dark Cloud**—40 in. Very fine ruffled double flowers of rich Royal Purple. Extra fine.
- Diamond Mountain**—36 in. A TRIPLE variety with a multiplicity of smaller petals as a "tufted" centre. Intense blue-purple.
- Eumee**—32 in. A very handsome single deep rich blue-purple self, of uniform color throughout.
- Flute Echo**—45 in. Huge single flowers of bluish-lavender closely veined and flushed, with the white ground just showing through.
- Fukamurasaki**—40 in. Double. Richest velvety deep Royal Purple, with nicely tufted centre; lemon yellow throat in striking contrast. One of the darkest.
- Glory**—36 in. A magnificent dark "spotted" single, with white and blue purple heavily splashed over the falls.
- Hollyhock Blossom**—42 in. Early. Very lovely soft lilac, veined deep maroon. The name alludes to the shape of the flower.
- Hosagawa**—36 in. Fine, large early double flowers of superbly rich deep petunia violet.
- Kamata**—32 in. A fine rich deep blue. A very striking variety.
- Katherine Havemeyer**—42 in. Huge flowers of an exquisite shade of soft lavender. One of our finest Irises.
- Koki-No-Iro**—Huge double to triple flowers of deep rich Royal Purple. One of the most popular.
- Late Wonder**—46 in. Three large petals white, covered with a network of fine deep royal purple veins, three small standards deep violet with snow-white border. A magnificent variety.

- Lucie Marshall**—54 in. Rich double pansy violet, with a snow-white area surrounding a yellow throat, the white area radiating out into white veins.
- Mahogany**—36 in. A very lovely double mahogany red. One of the most beautiful of the Kaempferi Iris.
- Mrs. J. Alexander Hayden**—42 in. Superb huge double white flowers, bordered and shaded soft violet.
- Nina**—40 in. A superlatively beautiful variety; white flushed soft pink, the outer border being pure white. Huge size.
- Norma**—40 in. A handsome lavender pink, with a clear blue halo surrounding the yellow throat markings.
- Priam**—40 in. Huge single white flowers, with a soft flush of lavender to add to its attractiveness.
- Princess Clothilde**—36 in. A super-fine double in deep blue, with ash grey veins.
- Princess Hollyhock**—42 in. Vividly brilliant and effective. Pale wisteria violet, with vivid prune-purple veins.
- Purple Giant**—42 in. Massive purple flowers of unsurpassed beauty.
- Pyramid**—32 in. A magnificent double to triple deep blue-purple, with white styles and yellow throat in striking contrast.
- Santa Claus**—36 in. Finest of its type. Double lavender-blue, shaded soft violet on the edges and veined deeper.
- Sea Crest**—46 in. Double frilled white, faintly flushed very soft lavender, with lavender crests.
- Tacoma Beauty**—38 in. One of our most handsome single whites, and a prodigious bloomer.
- Violet Herrington**—40 in. Large handsome double flowers of Bradley's Violet with white veins and tufted centre.
- Wakamusha**—36 in. Best of all the dark striped kinds. Deep, vivid, brilliant Pansy-violet veins over a white ground, with a 1/4 inch snow-white border. Styles intense solid blackish pansy violet. A most striking variety.
- White Naped Crane**—36 in. A gorgeous large double, covered with a network of fine blue veins.
- Yama Yama**—30 in. White, flushed lavender, with a bright violet hairline edging and cream styles.

"Reliance" Collection of Summer Blooming Iris

10 for \$3.00; 25 for \$6.75; 50 for \$12.00; 100 for \$20.00; 1000 for \$175.00

For those who do not require each plant separately labeled, but merely wish an extravaganza display of Iris that will follow the Tall Bearded Iris in bloom, and thus extend the flowering season for a few weeks, this mixed collection will be most suitable. The plants will be of the types illustrated and described on these two pages, although not necessarily the same varieties. In fact I grow hundreds of varieties and haven't the space to list them all.

I have grown thousands of plants in mixture just for this collection and would have no way of telling just what colors will go into each collection; but this surprise element is one of the delights of buying this choice collection, for you will surely be agreeably surprised as you watch the many delightful colors unfold. The mixture as it is in the fields contains single, double, and triple varieties; there are soft pastel colors and gorgeously brilliant ones, pinks, reds, light and dark blues, purples, violets, whites; solid colors, striped, blended and bordered effects, frilled petals and those of wax-like substance. These Iris come at a time when other Iris are scarce in the garden and will be especially appreciated on that account. The flowers are of huge size and extremely showy.

The plants will be of generous size, strong, well-rooted, flowering size; in fact as fine as any I have ever shipped.

THIS COLLECTION MAY ALSO BE HAD IN CLUMPS AT 10 for \$4.50; 25 for \$10.00; 50 for \$18.00; 100 for \$30.00; 1,000 for \$250.00. Clumps are always worth much more than the difference in price.

20 Rare New and Unusual Summer Blooming Iris "Kaempferi"

On the Superb Group of Rare, New and Unusual Iris Kaempferi on this Page I am Making a Uniform Price of \$1.00 each; 3 for \$2.75; 6 for \$5.00; 12 for \$9.00; 100 for \$65.00

THE VARIETIES ON THIS PAGE CAN BE FURNISHED IN CLUMPS INSTEAD OF SINGLE PLANTS AT \$1.50 each; 3 for \$4.00; 6 for \$7.50; 12 for \$13.50; 100 for \$97.50

The Iris offered on this page are all grown at my nursery in New Jersey and shipped from there and practically all are of American, English or French origin.

America—36 in. Huge single flowers of white with a vivid blue border, the border fading out somewhat as the flower ages, but always attractive. Somewhat like the variety "Blue Border" but larger and better and with a heavier and wider border.

Amethyst—32 in. Very fine large single azure blue flowers of silky texture, with creamy white styles. An exquisitely dainty color and a lovely flower.

Cloud Drift—36 in. Large double marbled effect, the white ground being almost completely covered with shadings and veins of medium violet.

Ethel J. Marshall—36 in. One of the most striking of all. Three large petals are white very slightly flushed soft violet. Three smaller petals aconite violet, edged milk white.

Gofuku-Shoshu—32 in. Huge double flowers of soft pink with deeper pink stripes and a white background just showing through.

Hatsuka—30 in. Gorgeously rich single flowers of intense vivid **Spectrum Violet** by the color charts.

Helene—36 in. Double. This is one of the finest Iris I have. Formerly listed by me at \$5.00. Now I have a large enough stock to include it in this collection at \$1.00. Uniform blue-violet veins form a complete thread-like network over the white background. See illustration.

Indo—38 in. Huge single indigo-blue flowers, with lemon yellow throat markings surrounded by a narrow white area. Makes an imposing garden picture.

Light in the Opal—42 in. Huge size ruffled double flowers of gorgeous pink coloring with a soft blue throat halo.

Maple Cascade—40 in. Very large early flowering double dark reddish-purple with a golden centre.

Margaret S. Hendrickson—36 in. Double to triple. I have always considered this the finest medium toned blue. It is a perfect flower in every way.

Oriole—36 in. A glorious early double rich Burgundy red-toned variety.

Oyodo—40 in. Intense deep velvety uniform Royal Purple. Large flowers of extra heavy velvety substance.

Pink Progress—38 in. A rare and very beautiful soft pink. One of the best of the rare pink tones.

Pluton—36 in. Extremely handsome double flowers; intense, rich, petunia-violet veins over a white ground.

Rose H. Scheepers—36 in. One of our most lovely double varieties in a delightful uniform mauve shade.

Seaside Waves—Very large double late flowering soft blue with silvery veins.

Sofu-No-Koi—36 in. A superb "marbled" effect. Hyacinth violet over a soft blue ground, with a deeper blue flush at the centre.

Triumph—38 in. Huge white flowers, "flaked" phlox purple with a brilliant orange throat. A handsome variety.

White Giant—42 in. A new snow-white variety with gorgeous flowers produced in great abundance.

ONE EACH ABOVE 47 VARIETIES—VALUE \$51.00 FOR \$40.00

MY GIFT TO YOU FOR 1944

At my nursery in New Jersey I have one of the finest stocks of Daylilies in existence. There are about 400 Varieties of them, including all the latest introductions and many new colors. Perhaps I shall find time later on to make a complete listing of them, but meantime I have selected a few of the choicest varieties for these 3 collections—and have decided to offer some of the finest FREE.

There is nothing more durable than daylilies. They are almost **everlasting** when once planted, and whether they are wanted for the small intimate garden, for the large estate, or for the wild garden, they are equally suitable. Nothing is easier to grow, from Florida to the Great Lakes and from the Atlantic to the Pacific, in cold or warm climates, in all sorts of soil, in sun or shade. They will adorn any nook or corner where they are planted; with a minimum of care and attention, and are reliable, hardy, and prodigious bloomers everywhere.

A six months blooming period may be had by planting different varieties.

YELLOW IRISES

It is not many years since Iris growers were bemoaning the fact that the development in yellow Irises was not keeping pace with other colors. Then the "breaks" came, and one after the other yellow Irises of stupendous size and great beauty began to appear, until today they have outdistanced all other colors. We now have a group of different tones and forms of yellow Irises that leave nothing to be desired in size, beauty, form, texture, and all other good qualities. Here is a group of the largest and finest.

California Gold—36 in. This variety is about the size, shape, color, and form of the illustration at the left. It is simply superb, with a brilliance of color, perfection of form, profusion of bloom, and delightful poise and placement of flowers that makes it ideal where a pure deep yellow is desired. Originally sold for \$25.00 for a single plant. NOW **75c each; 12 for \$7.50; 100 for \$52.50.**

Happy Days—44 in. The hybridizers dream come true. The largest of all yellows, flowers over 7 inches from top to bottom, with 7 to 8 of these massive blooms to each nicely branched stalk. The color is almost as deep as California Gold and the flower is of fine form and heavy substance. It is Sensational! Stupendous! Former price \$25.00 for a single plant. NOW **50c each; 12 for \$5.00; 100 for \$35.00.**

Lady Paramount—44 in. As fine as Happy Days, but in a lovely uniform pure soft primrose yellow, with an unsurpassed perfection of form, smoothness of finish, and clarity of color that leaves nothing to be desired. Former price \$25.00 for a single plant. NOW **50c each; 12 for \$5.00; 100 for \$35.00.**

Golden Hind—38 in. This is quite different from the others, the lower petals flaring out almost straight; and the color is so deep that I should judge it is nearly twice as deep as the illustration at the left. It has been awarded 2 medals, one of which is the DYKES MEMORIAL MEDAL (awarded to only the one best Iris each year). For those who wish a **deep, deep yellow absolutely pure** in color, and perfect in form, here it is. Former price \$40.00 for a single plant. NOW **50c each; 12 for \$5.00; 100 for \$35.00.**
